About This Game

She Sees Red is an interactive live-action thriller full of drama, violence, and your responsibility.

There's been a strange murder in a night club. A detective is doing her best to find the elusive murderer who continues their killing spree leaving abundant evidence behind. Make different choices to affect the plot line and reveal all pieces of the puzzle.

- Dynamic and non-linear plot: it's a short but intense story with four possible endings that depend on your choices.
- Unconventional storytelling: the plot consists of two intertwined lines, and your choices in one of them determines the other.
- Real motion picture: it is a live-action movie presented to you by true professionals.

The alpha early access is planned to be released in two weeks!:

Hello my fellow followers!

The alpha is almost done, and if everything proceeds as planned, I hope to release it within two weeks!

I want to remind you, to avoid possible accusations in the future, that this is still an alpha, and while it does have more content than a demo, it is still only a small part of the full game.

In comparison to an alpha, the next version will have one more story arc, once again not connected to two story arcs from the demo. It will cover five brand new game rooms, located on the still unexplored part of the ship.

Why buy an alpha?

Because it has a very low price - just 3\$!

And those who buy it, will of course, receive the full version with no additional cost!. **Close Your Eyes -Anniversary Remake- Early Access releasing on January 24th for \$4.99:**

http://store.steampowered.com/app/706710/Close_Your_Eyes_Anniversary_Remake/

Thanks to the wonderful feedback on the Yai Gameworks 2018 Questionnaire and some wonderful occurrences that happened towards the end of 2017, I'm here to announce a finalized date for the release of the early access for Close Your Eyes -Anniversary Remake-. The early access version of the game will release on January 24th, 2017 for the price of \$4.99, though with a 5% discount for the first week of launch (and an additional 5% off for 10% total if you buy through the Yai Gameworks Complete Bundle).

The Early Access includes the full remakes of Close Your Eyes and Girl's Graveyard within them at launch, fully completed and playable from start to finish for all possible endings and secrets. Over the course of the months afterward will work on the other game modes, the new scenario "Close Your Eyes - Beneath the Surface", "Close Your Eyes -Anniversary Mode-", and "Girl's Graveyard: Challenge Mode". The price will raise by a bit right before the game leaves Early Access, but I will announce when that is ahead of time. I am aiming for August 31st as the release out of Early Access, but to prepare for potential delays the latest may be September 28th.

If you're curious about the Red Haze content update, it will release before the end of April 2018 I promise. Found Horror Game 11.exe also will definitely release sometime before CYE -AR- comes out of Early Access. Hope this transparency helps, I know I juggle things a lot but all of these things will be completed by the dates I have just mentioned.

Happy 2018 everyone, I hope to surprise you a lot with Yai Gameworks productions throughout the year!. **Find the Vulcan's Hammer!:**

You play as Amelia, a brilliant expert on Roman mythology and a new asset of the Myth Seekers agency. Your assignment is to continue the investigation of a fellow operative who recently vanished under mysterious circumstances. The first order of business is to locate the Venusian Codex and get in touch with an Italian agent named Lorenzo. Together you will need to track down the powerful artifact called Vulcan's Hammer. Time is of the essence as evil forces are also looking for the relic. During this stunning adventure you will travel across Italy, solving countless puzzles and looking for clues in hidden object scenes. Learn the truth behind the destruction of Pompeii and face off against the enemies of the Agency as you race to prevent another catastrophe!

Don't forget to add the game to your steam wishlist [🔖🔖](#)
